Let's begin...

Flowers play such a huge part in reflecting the beauty and spirit of your wedding day. I provide a free consultation with my couples to discuss what is important to you. Whether you already have Pinterest boards full of ideas or are starting with a blank canvas I like to cover every detail to make you a floral wedding package as individual and beautiful as the flowers themselves.

@love_and_luna_photography

You've got a date...

You have your venue booked and now you are ready for the next steps on your wedding planning journey. After you get in touch via the contact form or call planner on my website I will then arrange a 30 minute consultation over the phone to discuss all your ideas and we can start to work on the vision of your big day. I'll ask you to send me in advance any images you have collected from Pinterest, Instagram or online ready for our discussion. Of course if you don't have any images to share this will be fine, a blank canvas is always very exciting.

I'll then create a bespoke floral presentation based on what we have discussed with a mood board and breakdown of all costings and services. A deposit of £225 (15% of minimum spend) needs to be made to secure your date. This will then be taken off your final bill.

Before your big day...

For any weddings booked a year or more in advance, I will have a catch up call 6 months before your wedding date, here we can discuss in more detail your requirements for the day and if you would like a venue visit. Then I will arrange a final phone call 6 weeks prior to your wedding day to confirm everything and make any final changes. I will also confirm delivery details for the bridal party, groomsmen and ceremony and/or venue. Then final payment shall be made. I will then get in touch with your venue to make sure everything goes exactly to plan.

@davidscholesphoto

On the day

I will deliver the bridal/grooms party flowers first thing in the morning to where you are getting ready . Then set up at the ceremony space and venue. If your venue requires me for the turn around to rearrange after the ceremony I can stay on site to do this also.

The Morning after I will return to the venue to collect any vases, stands, candle vases etc
